– Audio Transcript and Daily Guide –

Welcome to the Premium Wealth Forecast for February, 2022!

Now, in this addition, we're going to focus on February 2022, very exciting month. February, 2022 is an 8 universal month. It has two beautiful Lunations. And so we'll look at those first and then we'll go into the forecast for the astrology and numerology for every day in February.

So let's get started with the universal month of 8. So when you add 2 plus 2+0+2+0, all four 2's add up to 8. Now because we have four 2s, we are very much connected to the harmony, peace, the balance, the incredible acceptance of the number 2.

2 is a number that reaches out across the divide with kindness and compassion. When we then look at that, February is an 8, this 8 is then infused with those qualities.

8 when it's turned on its side represents infinity. So it is focused on the part of you that is eternal.

In February the energy is going to shift. January was a 7 universal month, which is about taking a sabbatical, reflecting. And of course we had two retrogrades for most of the month - Mercury and Venus retrograde. Well, on February 3rd Mercury stations direct, and at the end of January Venus stations direct. So this number 8 will be very much utilized after some rest and reflection in January.

Now in February, you are going to move forward. Promotions come through. There's abundance in the air. You see a bright light at the end of the tunnel. You feel very prosperous. You feel pleasure. You feel a sense of internal confidence that allows you to lead your life with total courage.

So the greater the energy that you expend, the larger your reward. Because the number 8 is the infinity number, it represents infinite energy resources. So you have so much opportunity in February to not only

partake in the resources themselves, but also to start something magnificent.

And it is helped by the astrology as well, since astrologically, we will have all planets moving direct, moving forward. Once Mercury stations direct on the 3rd of February, all planets will be moving forward until the end of April. And this is really extraordinary. It doesn't happen that often. And for it to happen for this amount of time is very special.

So because it begins in an 8 universal month, we are really going to be able to move our ideas, our passions, our visions forward with a lot of momentum, a lot of courage.

And the number 8 also, because it is in the 2-4-8 triad numerology, the triad of manifestation, you will also feel the efficiency and practicality of moving forward with whatever projects and goals and intentions you have. So leave no room for doubt. This is a time to truly be fearless. We're mostly in Aquarius in February and Aquarius is the sign of freedom. And so the success of this combination is really fantastic.

Now we have two Lunations, as we usually do every month. In this case, the **New Moon in Aquarius**, which is right on the 1st of February universal time, very early in the morning, 5:46 AM in Greenwich, England. And so for some, it actually falls late in the evening, January 31st.

Now this New Moon in Aquarius is very special because it has a conjunction to Saturn, which means that you really can take things seriously and make sure that they actually manifest because you have a lot of self control. And you're very invested in the step by step process.

Also because the Sun and Moon are square to Uranus, the ruler of Aquarius and the ruler of this new moon, while Uranus is being trined by Mars and Venus, which is absolutely gorgeous energy. And this gorgeous energy will continue for many weeks in February and will really help the dissonance that is resulting from this square to the New Moon, to dissipate and to be lessened. So that any kind of urge that you have to break free, which you will have, to feel like you're liberating from those weights that you've been carrying around or those ideas that really feel sort of old and stale now, they don't make any more sense to you - this will be precipitated in a big way by this square to Uranus to the new moon, but also be lessened and harmonized by the trine that Mars and Venus form to Uranus.

So this is very powerful energy and it will feel intense. It is meant to get you excited, to have you take some risks, to immerse yourself in activities that stimulate you in a new way and to quicken the energy as well, so everything is cleared very rapidly.

Now, remember we are in Aquarius at this time and Aquarius is an air sign. It governs flight, it governs electricity and technology. And so your intuition is very activated with this Uranian Aquarian energy, and you certainly feel a great inclination to change and reform.

So the only thing you want to guard against is to make reactionary radical shifts, where you're basically not grounded and you're just acting in a very radical way.

Fortunately, Saturn is conjunct the Sun and Moon, as I already mentioned, and this is beautifully grounding energy. It keeps you rooted so that you don't get carried away and untethered.

So, it's very important to be proactive about creating positive changes in your life. And if you feel restless, just get to the bottom of whatever it energetically you're tuning into, and open up to a new way and focus on the frequency of peace, awareness, harmony, so that you can utilize all the strength and courage of this New Moon and of the month in February.

Now, other transits during this New Moon are Mercury conjunct Pluto. And this actually gives you tremendous insight into those areas that may not have been fully appreciated or fully seen. You will recognize them. You can have very intense conversations when Mercury and Pluto get together.

Remember that Mercury is very much at the end of its retrograde. So it's just sitting there for a few days and much more powerful as a result. So your perceptions on truth, on spirituality, on getting to the root of the matter, on your psychic abilities, are very much deepened at this time.

There may be a nervous intensity as you uncover these new answers. It's more like excitement. So see it that the power of Pluto is tremendous and is going to be activated more and more as the month continues because the U.S. is having its Pluto return for the first time since 1776. That happens on February 20th.

So the frequencies of what it means to be empowered without stepping on other people, right, taking advantage of other people, the whole meaning of having an influence that is positive, as opposed to self-serving, is very much going to be in play this month. And you can make incredibly empowering discoveries as a result.

Also, transiting is Venus trine to Uranus. This is very, very beautiful. Venus and Uranus are very creative in different ways. Uranus is the inspiration and Venus is the beauty, the love. There is a whole sense of having financial windfalls, having windfalls in terms of looking at what you value, getting a new perspective on abundance, honoring your own and everybody else's uniqueness through Uranus.

And knowing that your eye for beauty is really enhanced at this time. Your ability to innovate and express yourself in a unique way is very much enhanced. So creatively you're very stimulated and your relationships, especially intimate ones, get a burst of excitement.

And then we also have Mars sextile to Jupiter, which is very beautiful. Mars is at 5 degrees Capricorn, Jupiter at 7 degrees Pisces. Jupiter loves it in Pisces because Jupiter ruled Pisces before Neptune was discovered.

So this will really enhance your desire to bring your plans, your projects, to a successful conclusion. You have a project somewhere that wants to be heard, wants to be seen and felt.

And the success rate for reaching people or whomever you're impacting is really amazing with this transit. So focus on your intentions on what brings joy, because Jupiter represents that expansion of joy. You want to act on that, and then you'll definitely see the results unfold because, when Mars is involved, you just move. It's a one track movement and that is towards the goal. So the good fortune that you experience at this time, from your trust in a greater purpose, can't be underestimated.

So take initiative and be grateful. You will benefit from wonderful opportunities.

You'll also experience these opportunities in all parts of your life. It's not just business, it's also your relationships, your health, your spirituality, inner peace, environment, your ability to lead.

Full Moon in Leo

February 16, 2022 at 4:56 pm UT (London)

February 16, 2022 at 11:56 am EST (New York)

February 16, 2022 at 8:56 am PST (Los Angeles)

So then we have the **Full Moon in Leo** on February 16th. What makes this date so amazing is that we have a conjunction of Mars and Venus on this same day at 16 degrees. So this sets up a triple 16:16:16 code of tremendous intuitive awareness. Your intuition will be there to help you navigate through any challenging situations to protect you, to support you and, of course, to uplift you.

By the way, Venus and Mars will be traveling together for several weeks. This is so fortunate. It is bringing harmony within us, between the divine feminine and sacred masculine. And it continues through February, goes into March and really infuses us with so much peace and inner balance.

Now just like the New Moon in Aquarius on February 1st was the fourth consecutive new moon at 12 degrees, this Full Moon in Leo is the fourth consecutive full moon at 27 degrees. So those two numbers are making a big impact on us.

12 represents the eternal student, the fact that you are always growing and learning and that never stops. And the flip side of 12 is being the victim. So allowing others, top down situations to take over and take authority over you - and you allowing that process to dictate how you live your life. And so that is a process that we're extricating ourselves from over these few months with all these consecutive New Moons at 12 degrees.

Well, the Full Moons at 27 degrees are bringing not only wisdom and unconditional love, but also endings. There is a tremendous sense of release with the number 27, and the release is done through having compassion. Where there's no judgment. This is very powerful.

And what I love about this Full Moon with the Moon at 27 degrees Leo opposite the Sun 27 degrees Aquarius is that the Moon is forming any exact Quincunx, which is 150 degrees, to Pluto at 27 degrees in Capricorn.

So we have a triple 27, we have a triple 16. This is very intense in terms of the numerology - intuition and release through compassion. And Pluto with the Moon raises your psychic abilities to the nth degree, especially when you consider that the number 16 in numerology is also about listening to your intuition, acutely listening to your intuition.

So there's a great invitation now for you to release the propensity, to think

through topics that would be far better served if you listened to guidance from the universe about those topics. So not so much the practicalities necessarily, but the way you speak to others, how you are approaching the ideas that come into your mind. Are they inspired or are they just regurgitated from the past, where you just doing the same thing over and over again?

So this release aspect of the number 27, letting go of that way of doing things, and also at the same time, embracing who you are, the empowerment of who you are through Pluto, the inner confidence of trusting your abilities to listen to guidance is very much enhanced.

The other lovely energy surge with this wonderful Leo Full Moon is that the Mars/Venus conjunction is sextile to Neptune. Neptune is in its own sign of Pisces. This really helps with just beautifying your life, romancing your life, spiritualizing your life, just feeling very much, the creative artistic part of you, using your imagination, being immersed in love.

In fact, your love life can get a surge of tenderness now - this is very sweet, tender, warm energy, and it creates a beautiful spiritual connection to compassion, gratitude, unconditional love.

It sensitizes you as well. You just feel super connected and sensitive to others. With Mars also there's a strong internal drive to listen to your intuition, to allow your imagination to flow. You will stand up with Mars. Mars will stand for things. You can stand up for living a compassionate life and a life of nurturing. So you want to express that creative passion through beautiful words, through arts, through music.

And then we also have Jupiter sextile to Uranus, and that is almost exact. It becomes exact the following day on the 17th of February. Jupiter sextile, Uranus is such a fortunate transit. It brings lucky breaks and unexpected windfalls. It's a great time to take a risk, try a new approach.

Jupiter governs expansion, higher learning wisdom, far away travel. So you may delve more deeply and grow in unexpected ways and just be fully immersed in the acceptance of everyone and everything, and at the same time being, feeling the ever expanding sense of abundance and wealth in your life.

So this is also exciting because Uranus rules where the Sun is, the sun in this Leo Moon is in Aquarius, of course. So this Jupiter sextile Uranus is enhancing the Aquarian letting go, moving forward, having a sense of adventure, which

helps you acclimate to and anticipate great results that are beyond the horizon, which is where Jupiter likes to go.

So there's a quickening of energy. You learn things quickly, like new languages, new music, art, dance, anything that you want to integrate through higher learning is precipitated through the quickening of Uranus as well.

So I love these two lunatons. They're very positive. And with the combination of February's 8 universal month, there's tremendous confidence, encouragement, and empowerment through all these positive shifts so that you don't hold back and you actually take advantage of them.

So now let's go and look at the Astro-Numerology codes for every day in February.
